SKILLS

JavaScript, Typescript, C#, HTML, CSS, JQuery, Svelte, Astro, React, Next, Node.js, ASP.NET, Rest API, Express, Koa, SQL, PostgreSQL, NoSQL, MongoDB, Mongoose, Git/GitHub, Bootstrap, WordPress, VBA, Netlify, Vercel.

EXPERIENCE

Onvia, Remote   2024 – 2024
Front End Developer
- Re-styled the front-end of an ASP.NET CRM platform, using Razor syntax, JQuery, JavaScript, HTML, CSS, and Bootstrap.
- Recommended new interfaces and solutions focusing on User Experience.

La Història del Bàsquet Granollers, Remote (https://historiabasquetgranollers.cat/)   2023 – 2024
Full Stack Developer
- Developed a responsive website utilizing JS, HTML, CSS, Astro, and Svelte.
- Leveraged static files to be used as a database since the data is only fetched at build time. Used Mammoth in Node.js to read and extract data from word files, and XLSX to read and extract data from spreadsheets.
- Used Netlify for continuous deployments.

Club Bàsquet Granollers, Remote (https://cbgranollers.cat/)   2023 – 2023
Full Stack Developer
- Collaborated with the designer to seamlessly integrate the Figma mockup design into a fully responsive website.
- Used AFC and ACPT to create Custom Post Fields and Custom Fields in WordPress to fit client needs.
- Utilized PHP within WordPress to establish a webhook for automations as well as to modify the WordPress REST API response to tailor the response to the frontend needs.
- Implemented GitHub Actions automation for building and deploying the website in response to WordPress events.

Huddler, Remote   2022 - 2023
Front End Developer
- Developed the frontend with React, Typescript, Next.js and Tailwind
- Conceptualized "Recommended" algorithm with tailored recommendations based on user interests.
- Utilized Next.js for server-side rendering and fetching of two pages.

Road Trips - Campgrounds, Barcelona, Spain   2022 - 2022
Full Stack Developer
- Refactored a full-stack (React, Node.js with RESTful APIs) open-source codebase in a team of two.
- Upgraded JavaScript to Typescript for improved code quality and reliability.
- Implemented tests with the Testing Library and Jest to eliminate 100% of defects.

WannaGo, Barcelona, Spain (https://www.wannago.in/)   2022 - 2022
Software Engineer
- Developed intuitive UI/UX with React, with a focus on responsive design and UX.
- Streamlined REST architecture for optimal back-end performance and scalability.
- Implemented Firebase & React Context API to provide authentication.

Amazon, Hebron, KY, USA   2020 - 2020
Operations Financial Rotational Program (OFRP) Analyst Intern
- Developed a predictive model enabling Amazon Air to estimate and reduce deicing fluid costs.
- Created vendor templates adopted in 22 airports for request for proposals & work orders.
- Developed a tool to evaluate returned template data and identify areas for improvement.

EDUCATION

University of Toledo, Toledo, OH, USA   2019 – 2021
Double Major in Information Systems & Finance (Magna Cum Laude | GPA 3.921/4.0)

Northern Virginia Community College, Alexandria, VA, USA   2017 – 2019
Associate of Science in Business Administration, Emphasis on Accounting & Economics (Summa Cum Laude | GPA: 4.0/4.0)
